## **Ballast Controls**

Buttons exclusively on the Ballast page are shown in the table below.

ICON	DESCRIPTION
	To fill the respective ballast.
\$\$ FILL	To fill all the ballasts.

<b>††</b> 50	A real-time display of a ballast filling.
	To drain the respective ballast.
↓↓ DRAIN	To drain all the ballasts.
100 \$\$	A real-time display of a ballast draining.
	To halt the fill or drain of the respective ballast.

■ STOP	To halt the fill or drain of all ballasts.

#### Trailer Mode

- From the Ballast page, tap Trailer Mode.
- The Trailer Mode pop-up dialog box displays open and close options to fill or drain the gates.
- Note: Under the Open and Close buttons in the Fill Gates and Drain Gates areas, a message displays if both gates are opened or closed.
- When finished, tap the Close icon.

#### **Ramfill Ballasts**

		No Profile 오
Quick Surf	Quick Launch	CATS
	<b>** **</b>	
	How to use RAM FILL (RAM) Tanks $ imes$	став О
¥\$ (1	FILL : Make sure the boat is on the water and is moving above 10mph and below 15mph, before attempting to FILL. *Note: Reducing speed below 10mph or above 15mph will automatically close the RAM Gate and stop filling.	
	DRAIN : Accelerate above 10mph and below 25mph, before attempting to DRAIN. *Note: Reducing speed below 10mph or above 25mph will automatically close the RAM Drain Gate and stop draining.	
4¥ (1	*ADVANCED USER ACTION: If the RAM level is full/empty Overfill/Overdrain will run for 30 seconds.	
€ E		(\$)

- Note: Adjacent to each ballast are 3 respective features: Drain, Stop, and Fill.
- To select a specific ballast, locate the appropriate ballast.
- Note: When either the drain or fill option is selected, a connector line will display.
- To drain the ballast, tap the Drain icon.
- Note: To halt the drain, tap the Stop icon.
- To fill the ballast, tap the Fill icon.
- Note: To halt the fill, tap the Stop icon.
- To simultaneously drain all the ballasts, locate the All area.
- Tap Fill.
  - Note: The Ramfill Fill Disabled pop-up dialog box will appear if the boat speed is not between 8-15 MPH.
- To simultaneously drain all the ballasts, tap Drain All.
  - Note: The Ramfill Drain Disabled pop-up dialog box will appear if the boat speed is not between 8-23 MPH.
- To halt, all ballasts from filling or draining, tap Stop.

# Switching Screen

From the main right display, in the bottom navigation pane, tap the Lighting icon (3rd symbol).

#### **RGBW** Outputs

- Locate the appropriate RGBW output(s):
  - All RGBW (applying the same color for all outputs)
  - Tower Speakers
  - Interior Speakers
  - $\circ$  Interior
  - Underwater
- To activate/deactivate toggle on/off the RGBW output..
- Tap the corresponding vertical color bar.
- The respective RGBW Output Preset pop-up window will display.
- Locate the Presets area.
- Tap the appropriate color.
- To customize a preset color, tap Advanced.
- The Advanced pop-up window displays.

∰ 33 ft -+ 12.2 ∨			SurfLeft 🕒
Double Quick Quick View Surf Launch			四 50
	Tower Speakers	Presets	ctab 50
€ SW			<u>نې</u>

- To apply a custom color, simultaneously touch and slide the circle on the color wheel to the appropriate color.
- To adjust the brightness, simultaneously touch and slide the brightness slider to the appropriate setting.
- The color is reflected in the adjacent square.
- To save the customized color as a preset, locate the Presets area.
- Touch and hold the appropriate preset option.
- The selected preset is now updated.
- When finished, tap the Close icon.

#### Switching Outputs

- Locate the appropriate switching output(s):
  - Docking
  - Heater Fan
  - Seat Heater
  - Exterior
- To activate/deactivate toggle on/off the appropriate options.

## Audio Screen

From the main right display, in the bottom navigation pane, tap the Audio icon (5th symbol).

#### Auto Volume

- Note: The Auto Volume feature will adjust the decibel based on the vehicle's RPM.
- To activate the decibel automatically adapting, tap Auto Volume.
- The Auto Volume button is now highlighted.
- To set the volume at a constant decibel, re-tap Auto Volume.
- The Auto Volume button is now unhighlighted.

#### Source Selection

• Note: The active option displays on the Source Selection drop-down button.

- Additionally, the respective controls are right-adjacent.
- Tap the Source Selection drop-down.
- 5 options are displayed:
  - FM Radio, AM Radio
    - Controls:
      - Seek
      - Tune
      - Favorite
  - WX Radio
    - Controls:
      - Seek
      - Tune
  - AUX
    - Control:
      - AUX Connected
  - Bluetooth
    - Controls:
      - Shuffle
      - Loop
      - Pause
      - Forward
      - Back
      - Song name
      - Song timeline
- Tap the appropriate option.
- The selected option and its corresponding controls are now displayed.

#### Favorites

- Note: The Favorite feature is only available for the FM and AM radio options.
- Note: A maximum of 5 favorites are provided.
- Tap the Source Selection drop-down.
- Locate and tap the appropriate option.
- In the right-adjacent area, locate the corresponding options.
- Navigate to the desired radio station.
- Note: If less than 5 favorites are displayed, tap the Favorite icon.
- The selected favorite is now displayed.
- Note: If 5 favorites are populated, locate the appropriate favorite to override.
- Touch and hold on the appropriate favorite.
- The favorite is now updated to the current radio station.

#### Zone

- The Zone feature provides the ability to manually change the volume of a specific area:
  - Downfire

- Tower
- Sub
- Interior
- Tap Zone.
- 4 tabs are displayed: Downfire, Tower, Sub, Interior.
- Tap the appropriate tab.
- The corresponding volume controls are displayed.
- Tap the negative icon to decrease the volume.
- Tap the positive icon to increase the volume.
- (Un)tap the Speaker icon to (un)mute the sound.
- When finished, tap Done.

# Cuick Quick Surf Quick Launch FM ADD Bluetooth Pairing + ADD Bluetooth Pairing C No Profile © • </table

**Bluetooth Manager** 

- Tap BT Manager.
- In the Bluetooth Pairing pop-up window, tap Add.
- Activate the appropriate bluetooth device.
- Locate and tap the appropriate pairing device.
- Tap OK.
- The connected bluetooth device is now displayed.
- To exit the Bluetooth Pairing pop-up window, tap the Close icon.

# Surf Screen

Buttons on the Surf Screen page are shown in the table below.

#### Tab Controls

ICON	DESCRIPTION

  - Tap the appropriate option.
  - Tap the appropriate color.
  - To revert to the Dealer Options page, in the left-hand corner, tap the Back (left arrow) icon.

#### Wake Feature: Ballast Fill and Drain Times

- Note: The Wake feature is only active if the Dealer Settings are enabled.
- Refer to the <u>Dealer Settings</u> section, to activate the dealer features.
- From the main right display, in the bottom right-hand corner, tap the Settings icon.
- Simultaneously touch and scroll up to locate the Wake option.
- Tap Wake.
- All (5) ballasts are displayed:

- Port Ballast
- Starboard Ballast
- Center Ballast
- Bow Ballast
- Transom Ballast
- Locate and tap the appropriate ballast.
- In the respective ballast window, there are 3 options:
  - Enabled/Disabled toggle button
    - Tap the toggle button to the appropriate option.
  - Ballast Empty time
    - Tap the corresponding time.
    - Adjacent decrease and increase buttons are now displayed.
    - Note: The buttons apply 10-second increments.
    - Set the appropriate time.
  - Ballast Fill Time
    - Tap the corresponding time.
    - Adjacent decrease and increase buttons are now displayed.
    - Note: The buttons apply 10-second increments.
    - Set the appropriate time.
- To revert to the Wake page, in the left-hand corner, tap the Back (left arrow) icon.
- Locate and tap the appropriate ballast.
- Repeat the previous steps.
- When finished, tap the Close icon.

#### Wet Sounds Updater

- Note: The Wet Sounds Updater is only active if the Dealer Settings are enabled.
- Refer to the <u>Dealer Settings</u> section, to activate the dealer features.
- Note: Ensure the appropriate USB with updates is plugged into BB-10.
- From the main right display, in the bottom right-hand corner, tap the Settings icon.
- In the Settings pop-up window, tap Audio.
- Tap Update Wet Sounds Software.
- Tap Search for Update Files.
- Note: On the right-hand side 3 horizontal dots will sequentially re-display until the files load.
- The updated files are now displayed.
